Enterprise GIS Audit
Is your GIS optimized to support your needs?

Cloudpoint Geospatial Kickstart Packages are short-term, high-impact services that provide knowledge transfer, best practices, and consulting support on a variety of Esri products and GIS management tasks. A checkup on your enterprise GIS may be just what you need to improve efficiencies and to get the most out of your data.

What do you get with a Cloudpoint Check Up?

- Technical diagnosis of existing GIS infrastructure.
- Business utilization assessment and suggestions for improvement.
- Summary of data storage organization and software architecture.
- XML data schema (If applicable)
- Recommendations for training to increase GIS optimization.
- Overview of best practices for administering ArcGIS Online or ArcGIS Enterprise (if applicable).
- Analysis of functional adoption of GIS.
- Summary of recommendations and findings.
